

**Dr. Barbara Seymour, DNP, RN, NE-BC, CPPS**, serves as the Associate Vice President of Member Networks for the Chief Nursing and System Advanced Practice Executive Networks. Her dynamic and engaging leadership approach is supported by her 25 years of nursing experience, with a clinical background in cardiac and critical care. Barb's progressive leadership experience culminated in a decade of executive roles as a chief nursing officer in multi-hospital organizations. She earned her bachelor's degree in nursing from Spalding University in Louisville, Kentucky; a master's degree in healthcare administration from the University of St. Francis; and a doctorate degree in nurse executive leadership from the University of Central Florida. Her doctoral work focused on leadership development and its influence on achieving exceptional patient and organizational outcomes. Barbara is passionate about sharing her own personal story with her father's illness and journey through healthcare, and helping others identify and connect to their own personal "why" as healthcare providers.
